

## PROFESTART® ELECTROLYTE PLUS POWDER

Isotonic energy and mineral salt supplement with added psyllium

SKU: N/A | Categories: [Livestock Supplements](#), [Milk Additive/Supplement](#) |

### Active Constituents:

- Energy (sugars)
- Salts of VFA's
- Sodium Chloride
- Potassium
- Functional Fibre
- Vitamin C
- **Psyllium Husk (gelling agent)**

**Directions for use:** To be fed as a supplement in between normal milk or milk replacer feeds for infant animals experiencing gastric disturbances. If the animal displays weak reflexes or refuses to drink, seek immediate veterinary advice. **MIXING RATE All solutions should be consumed immediately after mixing.** Solution will gel quickly if allowed to stand. If gelling occurs, restir or remix gel solution and

feed straight away. Dissolve 60g (1 heaped spoon) into 1.5L of clean, warm drinking water (40°C).

**Note:** As a supportive measure during times of stress, disease, ill-thrift and gastric upset add FortiMILK® GREEN to the milk feed not the Electrolyte PLUS solution. **CALVES & FOALS** Offer 1.5L of fresh solution in between milk feeds (allow 3 hours) until a return to normal faecal consistency occurs. Offer a freshly mixed solution using the following guide:

1 <sup>st</sup> Feed	0 hours – offer 1 heaped scoop (60g) in 1.5L warm water
2 <sup>nd</sup> Feed	12 hours – same as first feed
3 <sup>rd</sup> Feed	24 hours – same as first feed
4 <sup>th</sup> Feed	36 hours – offer 3/4 - 1 level scoop (40g) in 1.0L warm water

**Indications:** Oral, non-antibiotic isotonic energy and mineral salt supplement with added psyllium (a natural, non-digestible gelling agent) for calves and foals. Suitable for sick infants during periods of gastric disturbance requiring a return to normal faecal consistency.

**Pack Sizes:** 103325 1.5kg Pail | 6 units per carton 103330 4kg Pail | 4 units per carton 103335 8kg Pail | 2 units per carton

**Precautions:** Nil

**Storage:** Store below 25°C (Air Conditioning) in a dry place, out of direct sunlight. Protect from air and moisture. Keep container sealed at all times. Reseal container immediately after dispensing. Product will absorb moisture from air (if left unsealed) which may cause crusting on the surface or hardening or powder (still effective) or in extreme circumstances may form a gel (discard product).

**Withholding Periods:** WITHHOLDING PERIODS CATTLE MEAT: Zero (0) days MILK: Zero (0) days EXPORT SLAUGHTER INTERVAL (ESI) Zero (0) days
