\$43.00 inc GST

Isotonic energy and mineral salt supplement

SKU: 3302 | Categories: [Infant Animal](#), [Infant Animal - Shop](#), [Milk Additive/Supplement](#) |

Active Constituents:

- Energy (sugars)
- Salts of VFA's
- Sodium Chloride
- Potassium
- Functional Fibre
- Vitamin C

Directions for use: FEEDING GUIDELINES To be fed as a supplement in between normal milk/milk replacer feeds. If the animal displays weak reflexes or refuses to drink, seek immediate veterinary advice. All solution should be consumed within 24 hours of mixing. **MIXING RATE** Dissolve 60g into 2L of clean drinking water (40°C). **Note:** As a supportive measure during times of stress, disease, ill-thrift and gastric upset add FortiMILK® GREEN to all electrolyte feeds. **CALVES** Offer 2L of fresh solution per head 2-3 times per day for 2-3 days or until hydration is normal. **FOALS** Offer 2L of fresh solution per head 2-3 times per day for 2-3 days or until hydration is normal. **LAMBS-KIDS-CRIAS & FAWNS** Offer 100-200mL of fresh solution per head up to 6 times per day for 2-3 days or until hydration is normal. **PIGLETS** Offer 30-40mL of fresh solution 3-4 times daily. A litter of piglets can consume 2-3L daily. Individual weaner pigs can consume 1-2L daily. **DOGS-CATS** Offer fresh solution using the following guide:

Cats & Miniature Dogs (<5kg)	125mL 2-3 times daily
Small Dogs (5-10kg)	250mL 2-3 times daily
Medium Dogs (11-20kg)	500mL 2-3 times daily
Large Dogs (>20kg)	750mL 2-3 times daily

Indications: Oral, non-antibiotic isotonic energy and mineral salt supplement for calves, foals, kids, crias, fawns, piglets, dogs and cats. Suitable as a first feed for brought-in or stressed calves, lambs and pigs, and as a supplement for racing animals.

Pack Sizes: 103301 60g Sachet | 20 units per carton 103302 2kg Pail | 6 units per carton 103304 4kg Pail | 4 units per carton 103310 10kg Pail | 2 units per carton 103320 20kg Pail

Precautions: Nil

Storage: Store below 25°C (Air Conditioning) in a dry place, out of direct sunlight. Protect from air and moisture. Keep container sealed at all times. Reseal container immediately after dispensing. Product

will absorb moisture from air (if left unsealed) which may cause crusting on the surface or hardening or powder. If this occurs, break up powder and measure out your requirements as per mixing instructions. Crusting or hardening of powder does not affect product effectiveness.
