SKU: N/A | Category: [Vitafarm](#) |

Active Constituents: Superior quality full cream, skim and milk protein powders, High Performance Vitamins & Minerals mix including: Vitamin A, Vitamin D3, Vitamin E, Thiamine B1, Riboflavin B2, Nicotinic Acid B3, Vitamin B6, Pantothenic Acid B5, Vitamin B12, Folic Acid B9, Biotin, Vitamin K, Vitamin C, Manganese, Zinc, Copper, Cobalt, Iron, Iodine, Selenium, Magnesium, Vanilla Flavour, Probiotics (4pro™ Microbial Forte) and Safmannan®

Directions for use: How to prepare feed:

To achieve best results, first add Vitafarm CMR to half the required volume of fresh, clean water, warmed between 40-60°C. Once fully dissolved, add the remaining balance of water and stir until homogenous.

Lambs: Mix at 160-200g/litre

Age (days)	Volume per Feed	Number of Feeds Daily	Daily Intake (ml)
2 - 7	150	5	750
8 - 14	240	4	960
15 - 21	330	4	1320
22 - 28	440	3	1320
29 - Weaning	475	2	950

Kids: Mix at 110-130g/litre (All figures are per lamb/kid)

Feeding Guidelines:

- Colostrum to be fed for the first few days.
- Supply clean, fresh water at all times.
- Changes to the volume of feed should be made gradually.
- Ensure all equipment used in preparation and feeding is hygienically cleaned prior to use.
- Vitafarm feeding recommendations are to be used only as a guide. Exact volumes fed are dependent on the weight and breed of the lamb and kid.

Management Tips:

- Provide lamb and kids with a clean, dry environment that provides shelter from draughts.
- Ensure animals have sufficient space and that they are housed with animals of a similar size and weight, in groups of between 6 and 8.
- Address and isolate any sick animals immediately.
- Lamb and kids navels should be checked and sprayed with iodine to prevent navel ill.
- Smaller more frequent feeds can help to prevent abomasal bloat due to gorging

Pack Sizes: 10KG

Precautions:

- This product is specifically formulated for animals as described.

- This feed is unsuitable for human consumption.
- The manufacturer accepts no responsibility if this product is utilised in incorrect quantities or conditions other than those recommended by the manufacturer.

Storage: Store under cover in a cool, dry, rodent free place below 30 degrees celcius away from sunlight. For maximum freshness we recommend that Vitafarm Milk Replacers to be used within 12 months of the date of manufacture.
