

VIRAL FX™ ONE SHOT BIO-DISINFECTION

THE BROAD SPECTRUM VIRUCIDAL, BACTERICIDAL, AND FUNGICIDAL DISINFECTANT AND CLEANER

ViralFx™ is the disinfectant of choice for governments keen to secure their farm animal and border biosecurity. Its unique formulation gives the widest proven spectrum of activity of any disinfectant available.

- **Powerful** - One shot bio-disinfection that kills over 500 pathogens: 400 bacteria, 100 viruses and 60 strains of fungi and yeasts. ViralFX™ is a broad-spectrum disinfectant that has been tested and proven effective against all known viral families. It kills bacteria, fungi and mycoplasma, including FMD, Salmonella and E. coli.
- **Fast-acting** - A 1% percent solution of ViraFX™ is proven to kill bacteria and viruses within five to ten minutes contact, or less.
- **Multi-purpose disinfectant** - A 1% solution of ViralFx™ is recommended as a “one step” cleaning and disinfecting procedure for all surfaces, equipment, instruments, utensils, and cages - associated within veterinary, agriculture, aquatic production, zoo and humane society facilities.
- **Versatile** - Suitable for footdips, aerial spraying, misting and fogging.
- **Highly effective** in hard water, on porous surfaces, in varying temperatures (-5°C to 45°C) and in the presence of organic challenge. When used at dilutions of 1:1000 (0.1%), it is safe and suitable for animals to drink water treated with ViralFX™.
- **Readily soluble** in tap water or hard water, ViralFX™ dissolves into a pink solution.
- **Environmentally acceptable product** - Exceptional safety profile towards humans and animals when used and disposed of as instructed on the label.
- **Excellent stability** - With a shelf life of 3 years from date of manufacture.
- **Easily transported and stored** - Being a powdered disinfectant formulation, ViralFX™ can be swiftly transported by air and can be stored for long periods, making it the ideal choice for stockpiling in bulk.
- **Australian Made** - Supports local industry.
- **APVMA Registered** - ViralFx™ is licensed-approved with Australian Pesticides and Veterinary Medicines Authority (APVMA Approval number 65691/51590) as a routine day to day disinfectant and for Emergency Disease Control.
