ProfeLAC® PetMilk

MULTI-SPECIES FEEDING GUIDELINES

PUPPIES — Mixing Rate: 15 - 20 g/100 mL

COLOSTRUM - Feed in the first 24 hours of life.

AGE (DAYS)	FEEDS PER DAY	MIX RATE IN 100ML	80 g	100 g	200 g	500 g	1 kg	2 kg	5 kg	10 kg
			TOTAL VOLUME PER DAY (mL)							
2-3	8-10	15 g	25	30	60	150	250	450	750	1400
4-6	8-10	20 g	15	20	40	100	170	300	500	950
7-20	6-8									
21-42	4-6									

Always consult an experienced Wildlife Co-Ordinator or Veterinarian to establish what will suit each individual animal best.

KITTENS — Mixing Rate: 15 - 20 g/100 mL

COLOSTRUM - Feed in the first 24 hours of life.

AGE (DAYS)	FEEDS PER DAY	MIX RATE IN 100ML	50 g	100 g	200 g	500 g	1 kg	2 kg	5 kg
			TOTAL VOLUME PER DAY (mL)						
2-3	10-12	15 g	15	30	60	150	250	450	750
4-6	10-12	20 g	10	20	40	100	170	300	500
7-20	8-10								
21-42	6-8								

Always consult an experienced Wildlife Co-Ordinator or Veterinarian to establish what will suit each individual animal best.

DOG + CAT						
Use as a Nutritional Supplement with dry kibble						
WEIGHT OF ANIMAL	0 - 5 kg	5 - 10 kg	10 - 20 kg	20 - 30 kg	30 - 50 kg	50 kg+
VOLUME PER DAY (20 g / 100 mL)	30 - 35 mL	35 - 70 mL	70 - 140 mL	140 - 200 mL	200 - 350 mL	Add 70 mL per 10 kg increase

General recommendations (across all species):

- If colostrum is not available from the mother or another dam (same or different species), add a colostrum supplement (if available).
- Colostrum intake in the first 24 hours of life is vital to survival.
- Keep animals in an area that is dry, warm and draft free.
- Weigh infant animals regularly to ensure milk intake is adequate for body weight.
- Where practicable, milk feeds should be made fresh. Refrigerate reconstituted ProfeLAC® PetMilk for no longer than 24 hours and discard unused portions after 24 hours.
- Clean ALL feeding utensils and equipment after each feeding: rinse in lukewarm water, wash with a detergent in hot (80°C) water, rinse with clean water (ideally a 10% bleach solution) and dry thoroughly with a 'clean' towel.
- Consult your veterinarian for signs of disease, fever, parasites or poor performance etc.
- Fresh, clean water should be available at all times
