

2018 JFC Milk Kart

340 LITRE MODEL

**PRODUCT
UPGRADE**

Calf Feeding Made Easy

The JFC Milk Kart range is the most efficient way of feeding your calves.

Our 2018 model (MK340MP3) features an upgraded pump which can dispense up to 36 litres per minute. This model also includes an upgraded control box and dispensing nozzle, these features ensure a faster milk delivery time when using the JFC Milk Kart with pump.

The JFC 340 Litre Milk Kart is large enough to mix 2 x 20kg bags of milk replacer in just 4 minutes. The mixer provides a smooth mix, through vortex-enhanced mixing. This helps to eliminate the separation of nutrients and / or foaming of milk.

The MK340MP3 is fitted with a battery powered pump capable of supplying a milk flow of 36 litres per minute. The battery has enough power to dispense up to 7,500 litres of milk on a single charge.

All JFC Milk Kart models are fitted with a galvanised steel frame and come complete with a lever valve, allowing for full control of milk flow.

2018 JFC Milk Kart (340 Litre)

2018 Model Upgrades

PUMP

The JFC MP3 range of milk karts now features a silent running high output pump increasing the flow rate by 33%. It can dispense up to 36 litres per minute. The pump is mounted directly on to the frame and housed in a protective case along with the battery.

CONTROL BOX

Upgraded control panel now incorporates the charger and mixer plug points for ease of access. Mounted in a higher position the control box also features upgraded switches with LED lights to indicate when mixer / pump is in use.

Benefits

- Easily transports bulk quantities of whole milk or milk replacer to calves.
- 1 ½" lever valve allows user to control the amount of milk dispensed.
- Twist on lid minimises spillages and contamination.
- Mix up to 340 litres of milk replacer in just 4 minutes.
