**FortiMILK® GREEN**  
 Healthy Calves. Healthy Cows.™

**WHY FortiMILK GREEN?**

FortiMILK GREEN is a unique blend of ingredients sourced from nature, designed as a supportive measure to aid health and improve recovery during times of disease, stress, ill-thrift and gastric upsets. Non-medicated formulation ensures suitability across all species, ages, applications and farming systems. FortiMILK GREEN is designed for use in milk and electrolyte feeds.

**THE FortiMILK BENCHMARK**

- ▶ Natural formulation based on global research, development and innovation
- ▶ Tried, tested and proven across AUS
- ▶ Unsurpassed product quality, performance and support
- ▶ Endorsed by leading professionals and specialists
- ▶ Available from leading rural resellers nation wide

**BENEFITS**

- ▶ **Application** – convenient and flexible administration
- ▶ **Performance** – improve health and recovery during times of disease, stress, ill-thrift and gastric upset
- ▶ **Price** – exceptional value for comprehensive supportive measure

## ACTIVE CONSTITUENTS

**FortiMILK GREEN** contains BioPAK® GREEN—a unique proprietary blend of ingredients sourced from nature including:

### ANTIOXIDANT

Supplemental antioxidants help overcome stresses to which newborns may be subjected, including inadequate housing environment, extended transportation, and changing environmental conditions. Shown to assist in preventing neo-natal scours as well as speeding up recovery from neo-natal scour events.

### YEAST

Live yeast stimulates activity of beneficial bacteria (probiotics) in the gut of pre-weaned animals, has a supportive role in immune function and aids digestion. Contains a specific strain of yeast that has a role in preventing gastric upsets in young animals.

### PREBIOTIC

Ultra concentrated preparation of yeast components, yeast culture, yeast extract, and hydrolyzed yeast. This unique blend provides a rich supply of fermentation metabolites which is an excellent nutrient source for calves. Research proven to bind Cryptosporidia and reduce faecal shedding. Also binds intestinal pathogenic bacteria and has a role in supporting the immune system in preweaned animals.

**CELMANAX™**

### PROBIOTIC

A unique blend of microencapsulated, live (viable), naturally occurring microorganisms. An ideal inhabitant of the digestive tract due to its ability to survive harsh conditions and to thrive once they reach the small intestine. Produces large quantities of digestive enzymes to aid digestion of feed when nutrients arrive in the small intestine.

## DIRECTIONS FOR USE

Designed for use in milk feeds and electrolyte feeds.

SPECIES	INDIVIDUAL DOSE (per head per day)	
	Maintenance	Stress
CATTLE	20g	50g
CALVES	10g	20-50g
HORSES	20g	50g
FOALS	10g	20-50g
SHEEP / GOATS / ALPACAS / DEER	10g	20g
LAMBS / KIDS / CRIAS / FAWNS	5g	10g
PIGS	10g	20g
PIGLETS	5g	10g
DOGS	10g	20g
CATS	5g	10g
PUPS / KITTENS	5g	10g
MARSUPIALS	5-10g	10-20g

### PROVICO CALF MILK ADDITIVE PROGRAM

<b>Day 1</b>	Add 5mL/head of <b>BioStart CALF</b> to first colostrum feeds to ensure colostrum curd, improve colostrum digestion and release antibodies for passive immunity transfer
<b>Day 2 - Weaning</b>	Add either <b>FortiMILK GOLD, SILVER</b> or <b>SOLUPLEX</b> to whole milk or unmedicated calf milk replacer to improve Cocci control and growth rates with Bovatec® and cover vitamin and mineral requirements. Alternatively, for a non-medicated program, feed <b>FortiMILK GREEN</b> from Day 2 - Weaning.

**NOTE:** As a supportive measure during times of disease, stress, ill-thrift and gastric upset, add **FortiMILK GREEN** to all electrolyte feeds and/or can be added to milk feeds for the first 2-3 weeks of life.

**PACKS** 600g Jar and 9kg Pail

**ESI & WITHHOLDING** NIL

**RESTRAINTS & CONTRAINDICATIONS** NIL

**DOES NOT CONTAIN RESTRICTED ANIMAL MATERIAL**
